

### ADMINISTRATION JUSTICE

Are you interested in being a forensic scientist, a lawyer, or a law enforcement officer? Courses will focus on the philosophies, history, and theories of the criminal justice system.

### COSMETOLOGY

Are you interested in the Beauty industry: hair stylist, make-up artistry, skin and nail care, etc.? The course will introduce you to these exciting careers.

### DESIGN & MEDIA ARTS

Are you interested in a career in a creative field? Whether you're looking for a career in the fashion industry or want to become the next YouTube sensation, these fun series of classes will give you the opportunity to learn new techniques. Put your creativity to use this spring. Produce short videos and learn editing techniques.

### EARLY CHILDHOOD EDUCATION

Interested in working with kids as your career? Whether you want to become a teacher or work with kids in private facilities, in this class you will learn developmental milestones for children, from conception through adolescence. You'll be able to observe children, evaluate individual differences and analyze characteristics of development at various stages.

### HEALTH AND RELATED SCIENCES

Begin your course work for an exciting degree and career in the health and related sciences sector. The healthcare sector will continue to grow and provide some of the best paying jobs in the nation. Learn the fundamentals and explore your career options.

### LIBERAL ARTS

Earn general education credits which you can apply toward an associate of arts or bachelor's degree in one of the Liberal Arts disciplines.

### ROBOTICS

This introductory course in robotics emphasizes hands-on experience to build a basic functional robot. Learn about electric motors, servos, sensors, switches, actuators and their application in a robot.
